**9:30am-Noon**

Stratford Optimist Hall (lower)

72 Water Street, Stratford

Participants must be over 14 years of age to attend.

## About the SHORE Centre

People with developmental disabilities are often left out of conversations around relationships, sexual health and decision making. Additionally, those with developmental disabilities experience a significantly higher rate of sexual assault, unplanned pregnancies and STI transmission. At SHORE Centre, we are committed to providing accurate, accessible information to all members of our community. [www.shorecentre.ca](http://www.shorecentre.ca)
